Key note presentations on:

- The ageing population in ICU
- Austerity and the impact on critical care provision
- The emotional impact of a stay in critical care
- The cost of caring and staffs emotional resilience
- The cost on the environment of providing effective healthcare

This event will focus on current issues and emerging agendas that arise from working in critical care, with a specific focus on caring for the older person in ICU, the impact austerity has had on how we develop our workforce and services and the emotional impact of a stay in critical care.
