Keynote presentations on:
• The ageing population in ICU
• Austerity and the impact on critical care provision
• The emotional impact of a stay in critical care
• The cost of caring and staffs emotional resilience
• The cost on the environment of providing effective healthcare

Keynote Speakers:
Mr Philip Woodrow
Professor Julie Scholes

This event will focus on current issues and emerging agendas that arise from working in critical care, including education and research developments, with a specific focus on caring for the older person in ICU, the impact austerity has had on how we develop our workforce and services and the emotional impact of a stay in critical care.
