# Cardiothoracic Surgery Update and Wetlab for Trust Appointed Doctors

## Course Outline

Discussion-based sessions, providing updates on an important topic in cardiothoracic surgery. Delegates will expect to follow either thoracic or cardiac, based on their preference at registration. However, applications from those wishing to update their non-dominant subspeciality are welcome. There will also be a session covering difficult intraoperative scenarios and decision making, followed by an MDT session to highlight 'real world' cases, exposing the enrolled delegates to challenges faced in a multidisciplinary setting.

## Course Directors

### **Mohammed Hawari**

Consultant Thoracic Surgeon,  
Nottingham University  
Hospital

### **Anas Boulemden**

Consultant Cardiac Surgeon,  
Nottingham University  
Hospital

Run in collaboration with  
**Johnson & Johnson Medical**

**J&J**  
**Institute**

Johnson & Johnson Institute policy limits attendance at corporate sponsored events to healthcare professionals with a bona fide professional interest in the program. Accordingly, company policy prohibits spouses, significant others, or guests from attending this event. If you receive a transfer of value in association with attending this event (i.e., paid or reimbursed travel expenses, meal costs), Johnson & Johnson Institute may be required to report such information to the U.S. government, depending on your professional license and the requirements under the Federal Open Payments Program and State Transparency Reporting laws. If you do not wish this information to be disclosed to the government, or if you are subject to any local laws or employer restrictions that prohibit you from receiving transfers of value, we request that you refrain from accepting our hospitality.
